ANOTHER NEW PAPER.

The Lyndonville Journal is the title of a neat looking and well filled four-page paper printed at Lyndonville by H. B. Davis, No. 1 of which was issued Saturday. The Caledonian thinks too much of Mr. Davis not to wish him abundant success in his new venture, still, with the memory of George Washington's most lauded characteristic before us we cannot see how five or six local papers can get on in a small county like Caledonia. They must live, as the poet wrote, "at a poor dying rate." The Caledonian demonstrated in its issue of June 27 that Caledonia county has, according to population, double the newspapers of either Chittenden, Essex, Frank--An excursion to Newport and lin, Lamoille, Orange, Washington, ties as many newspapers as are already printed in those counties they would have no more papers accord-

for other purposes, or so much of the same as said sum will pay. This resolution was passed and the

neeting declared adjourned. A special village meeting had been called at the same time and place and the warrant was read by the modtion to heating the town hall in connection with the court house.

Judge Ross as one of the court house commissioners said that they proposed to run a pipe about 18 inches in diameter up to the court room beside the northeast post of the hall. If the town allowed this the heat could be taken from this pipe whenever the hall was used. By doing this the town would get rid of the stoves and pipes and have the room heated very easily.

Prof. Henry Fairbanks asked steam heat could not be used and radiators placed around the room in stead of a pipe.

Judge Ross said steam heat was not practical for a court house. Rutland county had tried it and then Fisher, Waterford. There were six given it up. The court houses at Chelsea and Woodstock had the town hall on the first floor and heated them in that way.

On motion of Dr. Bullard it was voted to erect a pipe as above specified for heating the hall.

The next article in the warrant was in relation to erecting a stair way on the southeast side of the

town hall to the judges' room. Judge Ross said the commissioners would pay for the privilege of erecting this stairway by sheathing the town hall and frescoing it. The platform would also be extended and fixed so that the seats could be stored away under it. All this would cost H. W. Doran & Co. have leased the some \$400 or \$500, but the county was willing to do it for the conveni portion of the Thompson tools and ence to them in having the stairway. Prof. Fairbanks asked why the leased the Luke Buzzell shop and county could not erect an outside bought new tools and will carry on stairway. Judge Ross said this would mar the symmetry of the building and make it very inconvenient for the judges to have to enter their room from the outside of the building. On motion of Judge Ross the matter was left with the selectmen to decide after a conference with the commissioners. Adjourned.

the past week for a sum variously estimated at \$75,000 to \$100,000 fell suddenly upon the community and involves his brother John T., and W. A. Densmore who had signed his notes to the amount of \$5000. The failure was caused by suits brought Class No. 6, year-old geldings and by Canadian banks against Ira Cunningham and Mr. Densmore. His assets are only a few mortgages and the creditors will get a very small share of their due from the property which he endorsed for his son and which can hardly be reckoned as as sets. Mr. Cunningham has tried to carry more business than one man could tend to and has never given his personal attention to the details of the work. As a grain dealer he has involved A. H. McLeod & Co. and Griswold & Pearl, both of St. Johnsbury. Mr. McLeod has a claim of several hundred dollars and Griswold & Pearl's claim is between \$5000 and \$6000, about one-half of which is secured. Besides all these irons in the fire he has been a part owner with large amounts from the banks in the last few years and his creditors are largely contractors and banks in Canada. Every bank in Caledonia county except the Danville bank has had dealings with Mr. Cunningham and the St. Johnsbury banks will lose little or nothing as they claim to be secured. The national bank of Lyndon and the Lyndon savings bank may not fare so well. The two banks at Sherbrooke are stuck for \$11,000 apiece.
